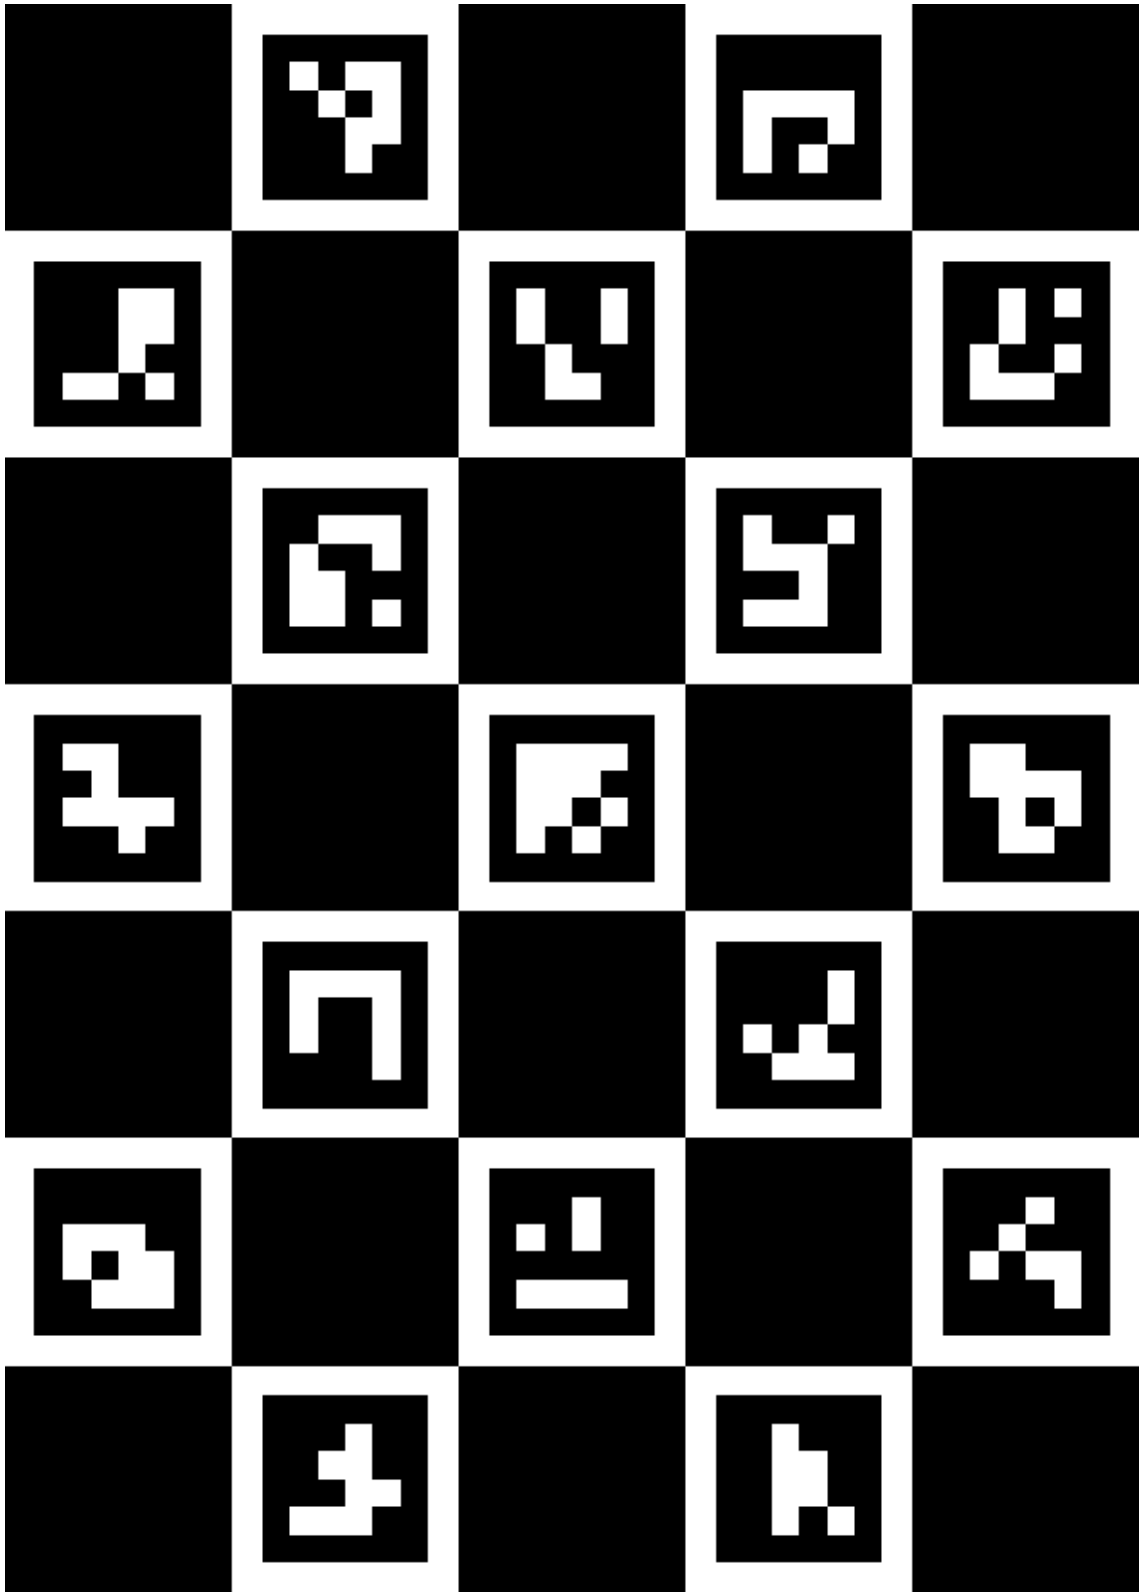
Page 1 - reference board (ChArUco 5x7, 30 mm squares, 22 mm markers, DICT_4X4_50)

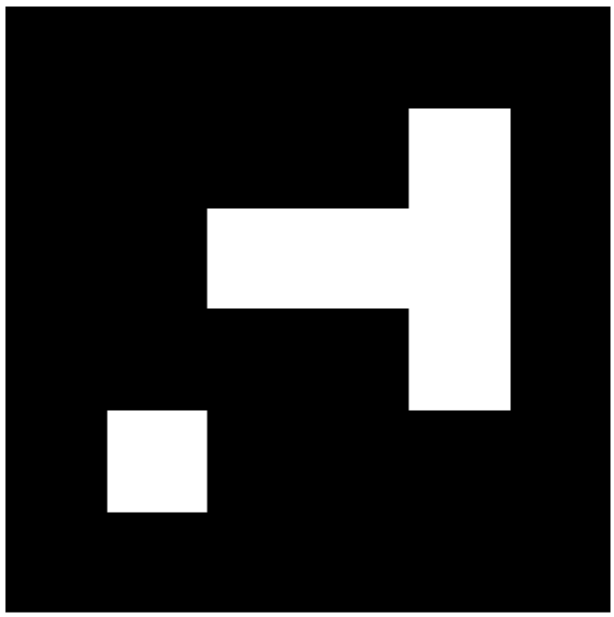
Tape flat on the front-left burner, top of the page toward the wall, tape at the page corners only.
Fully visible in every clip. Do not move it during a session.
Calibration (once): hold a copy where the pan will be and film 20-30 s, slowly tilting it into all four corners.



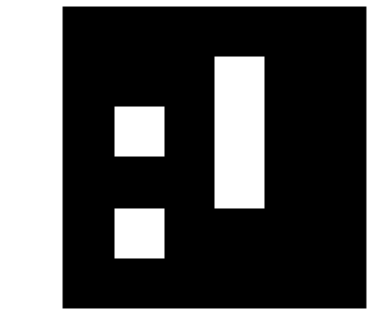
50 mm: measure this; if it is not 50 mm, reprint at 100% / actual size

Page 2 - pan markers (DICT_4X4_50)

id 40 (80 mm): flat on the inside bottom of the COLD pan, centred. Cut along the grey line, keep the white border. Double-sided tape under it, or tape on the white border only: tape over the black squares makes glare.
id 41 (40 mm): spare only. Nothing goes on the stove knobs or the pan's handle.



id 40 (80 mm)



id 41 (40 mm)

50 mm: measure this; if it is not 50 mm, reprint at 100% / actual size
